

Putting Reading First in Maine DVD

This DVD, developed by MDOE and MPBN, contains 17 video segments capturing reading in K-3 classrooms throughout the state. A Professional Viewing Guide accompanies the DVD and includes an overview of each segment, questions to engage viewers and extend thinking, and lists of additional resources (professional texts, children's literature titles, and Internet websites). Segments include research and instructional strategies in practice. What a wonderful resource for professional development. If you did not attend one of the 5 workshops throughout the state and receive this **FREE** resource, contact LeeAnn Larsen and obtain a copy for your district. It will be will worth the effort.
